

#11 Lincoln Bus Pilot

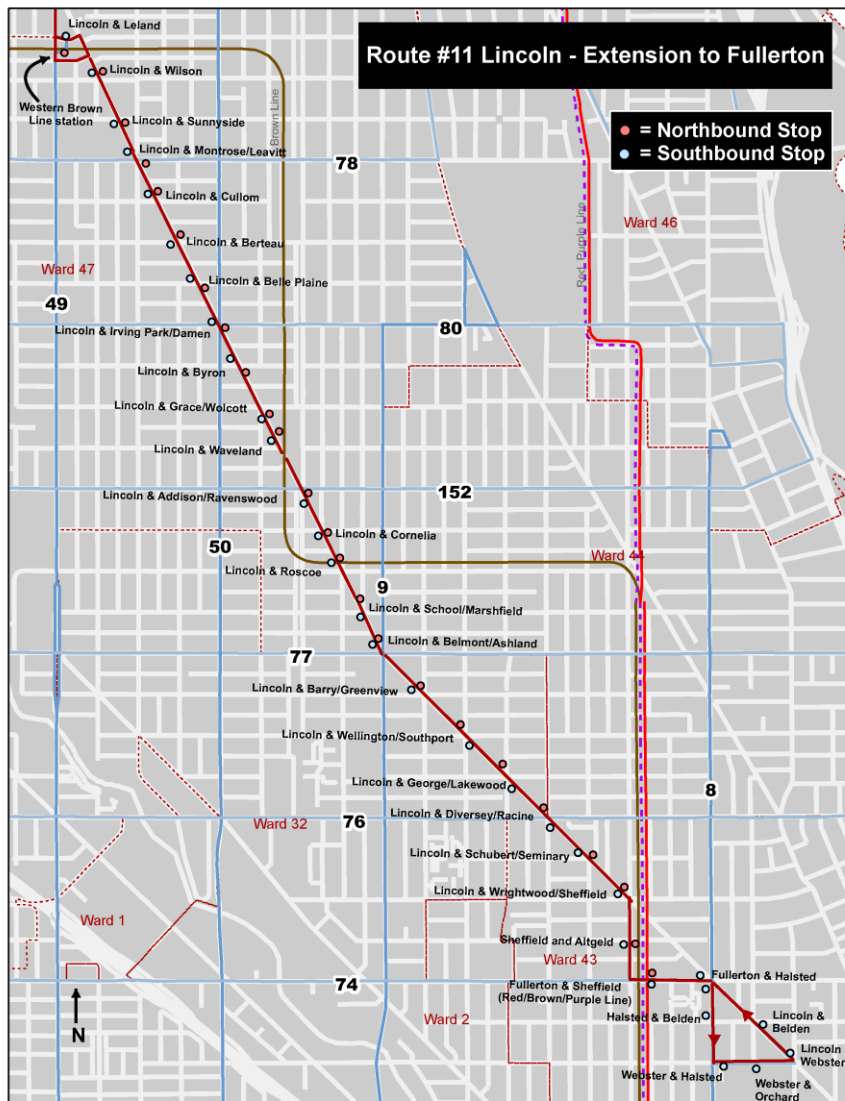

Starts Monday, June 20th

This summer, CTA will begin piloting bus service along the #11 Lincoln route, between the Western Brown Line stop and Fullerton. During the pilot, CTA will be collecting ridership data and feedback solicited from riders and the surrounding community to help analyze the effectiveness of the service being tested. At the end of the six months, CTA personnel will present the findings of the pilot to the Board along with a recommendation on whether there is sufficient ridership demand to conclude the pilot, extend it or make the service enhancement permanent.

#11 buses will operate between Howard/McCormick and the Fullerton Red/Brown/Purple stop via Lincoln Avenue on:

Weekdays (Mon–Fri)

10am to 7pm – every 16 -22 minutes

GET ON THE BUS!

After years of advocacy around restoring the #11 bus on Lincoln Avenue, the CTA is giving our community a chance to stand up for this needed service. Ride the bus to show your support for our neighborhood lifeline.
